Ganpat University (GNU) is a hi-tech education campus with ultra modern infrastructure facilities; located on 300 acres of lush green campus on Mehsana-Gandhinagar Highway, Gujarat, India. The University provides technical and professional education in the areas of Management, Engineering & Technology (including Marine Engineering), Sciences, Pharmacy, Computer Science, Social Sciences & Humanities, and Education, offering Diploma, Undergraduate, Post Graduate, M. Phil. and Ph.D. Programs.

GUNI - Faculty of Management Studies

GUNI - FMS offers General and Industry Specific MBA, MMS, BBA, Integrated MBA, M. Phil. and Ph.D. programs in Management. It offers its students a choice of focussed specialization in Marketing, Finance, HRM, Agribusiness, Financial Services, Pharmaceuticals, Business Analytics, Logistic and Supply Chain and International Business. FMS believes in balanced approach towards theoretical and practical learning and to achieve this, it organizes Seminars, Symposiums, Case Writing Workshops, Student Competitions etc. on regular basis at national and international levels. FMS publishes GFJMR which is a Bi-annual referred journal in Management.

Theme of Conference

Future of Work

The world of work is evolving at an unprecedented pace, driven by technological advancements, changing business dynamics, and global shifts in the way we live and work. The "Future of Work" is not just a distant concept; it's our present and the path forward. The Future of Work Conference offers an insightful journey into the rapidly evolving realms of employment, innovation, and workforce dynamics. In response to profound transformative forces driven by technological advancements and shifting societal expectations, this conference unfolds across seven distinct tracks.

The future of work is profoundly reshaping various business domains. In marketing, data-driven strategies and AI are paramount, enabling personalized and targeted campaigns. The future of marketing relies on data analytics and digital tools, and remote collaboration is key as marketing teams operate in distributed settings. Within the realm of finance, digital transformation is revolutionizing the industry. Fintech, blockchain, and AI are changing financial services, necessitating professionals to adapt to new technologies and operate in remote or hybrid environments. In Human Resource Management (HRM), the rise of remote work and automation is transforming talent management and development. HR professionals must navigate virtual workspaces, address employee well-being in remote settings, and lead initiatives for upskilling and reskilling the workforce. In operations, the advent of Industry 5.0 is enhancing efficiency through automation, IoT, and data analytics. Operations management is increasingly conducted remotely, providing flexibility but requiring robust digital tools and security measures. Information systems are at the heart of this transformation, enabling digitalization. They must balance the benefits of agility and data analytics with the challenge of ensuring robust security and compliance measures, particularly in remote and agile work settings. The ability to adapt to these shifts is becoming essential for success in these fields, emphasizing the dynamic nature of the future of work.

We invite you to join us at the "Future of Work" conference, where we will explore the transformative trends, strategies, and innovations that are defining the workplace of tomorrow. With six distinct tracks spanning various aspects of work and innovation, this conference promises to be a beacon of knowledge and inspiration for professionals and leaders in various domains.

Sub-Theme

The broad theme of conference entails the following sub-themes:

Technological Transformation

The Impact of AI and Automation on Job Roles, Preparing the Workforce For The Automation Revolution, the Ethical Implications of AI in the Workplace, the Role of Virtual Reality and Augmented Reality in Remote Work, Collaborative Tools and Platforms for the Future Workplace, Cybersecurity Challenges in a Digital Work Landscape, How IOT is Changing Workplace Design and Management, Enhancing Productivity and Sustainability through Smart Office Solutions, Privacy and Data Security Concerns in Connected Workspaces.

Paper Submission Guidelines

- ◆ We invite academicians, management consultants, practicing professionals, and corporates. Only original, unpublished work is sought. Any proposal submitted to present identical or substantially similar work already published, under review for another conference or publication will not be considered.
- ◆ In the covering note, accompanying the manuscript, the contributors should certify that manuscript has neither been published anywhere nor is being considered presently anywhere for publication.
- ◆ **Abstract (not exceeding 200 words) should reach us latest by January 16, 2024 in Microsoft Word Format only.**
- ◆ Submission should include a separate title page, which clearly indicates the name of the authors, affiliations, complete mailing address, telephone/fax numbers and e-mail address, title of the paper and up to four key words that describe the paper.
- ◆ For preparation of the manuscript, authors are requested to follow APA Citation Style. Please visit: https://guides.library.uwa.edu.au/apa/introduction_apa7
- ◆ Kindly send your abstract and full paper in Microsoft Word Format only to gcomp2k24@guni.ac.in

Review Criteria

1. Relevance: Does the subject of the paper appeal to the interests of the conference attendees?
2. Methodology: Does the paper use sound and appropriate methods?
3. Originality: Does the paper add new findings, insights, or knowledge to the body of literature?
4. Research: Does the paper compare and weigh the material against other's work?
5. Conclusions: Are the conclusions sounds and justified as per the problem discussion?
6. Policy/ Managerial Implications: Are the policy implications relevant and useful for the problem shown?
7. References: Are the references relevant and adequate?
